

Sept. 14, 1971 - Tuesday

Dear Vicki and Jim,

Thank you for the letter and the check. Also the dollar bill which is of no value but I think I will keep it anyway.

We had a nice Labor Day week and up at the cabin. We caught lots of nice fish over at Huckleberry Creek. They all were around eight to ten inches. Dad had a huge steel head on his line but finally lost it because the fish broke his line and got away. Dad had so much fun trying to get it in that he couldn't feel too badly that it got away.

Saturday we went to the football game and the weather was perfect. After the game we went over to Mary and Mike's and Mary fixed dinner and we played bridge.

Sunday was the hundred dollar a plate dinner for Dink at the Polynesian. Mary gave us tickets and also some extra ones so we invited Bensons, Donnellis and Marty and Thor. We had a wonderful time and when we left the eight of us went over to Bensons and the men played pool and the women played bridge.

Next Monday the Swedish class starts at the Swedish Club. Then Wednesday night

The class starts at the Community College in conversational Swedish. Dad signed up for that one so it will be nice having him along. He has to go back to Walla Walla this week and if he gets back for the weekend and we are going up to the cabin again. We are having beautiful fall weather.

I hope the rings arrived. I should have sent it air mail since parcel post is so slow.

I am going to play bridge this morning so had better get ready. I am going to play tomorrow also and then I will probably give it up for awhile so I can learn Swedish.

Our seafood market ships crab and salmon any place so I was thinking you might like to plan a party and I would send you a shipment of our black crab which might be a novelty there since this hard-shelled crab is so different from the soft-shelled.

I hope every thing is going along fine and have a nice weekend.

Love,

Mom.
